

Tuesday 10.10

- Group work
- Stocco & Stocco - A stockfish factory
- Olearia San Giorgio - An olive oil factory
- Visit to a factory where baskets were handmade from willow tree
- Carpentieri Profumi – A fragrance shop
- Tour of San Giorgio Morgeto – a municipality in the province of Reggio Calabria

Morning – Working on our companies

We started our morning with group work. We made final touches to our companies' power point presentations.

Stocco & Stocco

Our next stop was Stocco & Stocco, a local stockfish factory. We got to see the process of how stockfish is made. The fish goes through many steps before it is packed and delivered to customers.

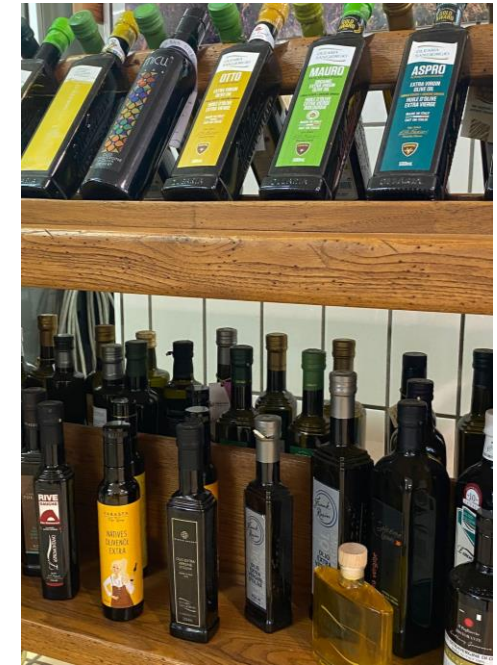

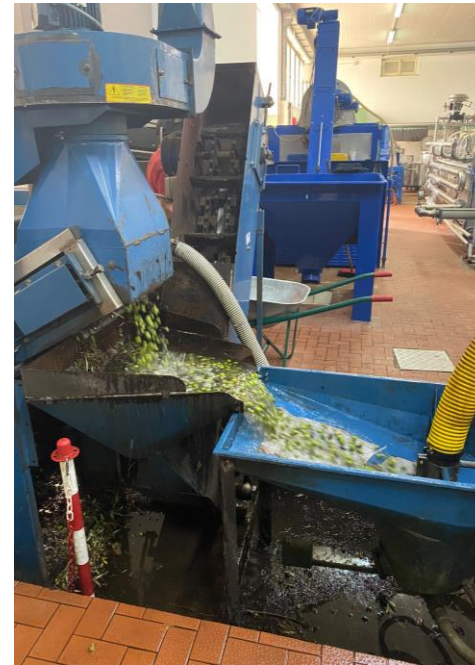

Eating Stocco Stocco

After our tour, we ate lunch in Stocco & Stocco. We had lots of different foods that were made from stockfish. Trying stockfish was a new experience, and it shared lots of different opinions. We had pasta with stockfish, and stockfish with tomato sauce and vegetables. After stockfish we also had a chance to eat icecream.

Olearia San Giorgio

After we ate at stocco & Stocco, we headed to San Giorgio. The schools' teachers took us to San Giorgio by their cars. We visited an olive oil factory, where we got to see the process of how extra virgin olive oil was made.

Handmade baskets

- After the olive oil factory, the school's teachers drove us to another factory in San Giorgio, where an old man made different kinds of baskets from willow tree. All the baskets were crafted by hand. He crafted a small basket (shown in his hand) in front of us and gave it to Susanna.

Carpentieri Profumi

- After we saw handmade baskets, the teachers drove us to a new location in San Giorgio. We headed to a local fragrance factory, where we learned about fragrance making and even got to make our own perfume to take home with us. After the tour, we were able to buy their products. They sold perfumes, room diffusers and creamy perfumes. Carpentieri Profumi is a family owned business.

San Giorgio Morgeto

After visiting the local fragrance factory, we had a tour of San Giorgio Morgeto, where we walked for the whole evening. We saw lots of different churches and other beautiful views. After our tour around San Giorgio Morgeto, we ate dinner, which was a panini with vegetables and meat inside. After dinner we headed back home for a while, and then went out with the whole erasmus group.
